Development Association

TRAINING

ENERGY STAR for New Home Builders Workshop

This workshop is highly interactive and focuses on developing the builder's ability to determine the best way to build an ENERGY STAR qualified home.

What will you learn?:

- How to build to the ENERGY STAR for New Homes technical standard through a cost-effective process.
- Strategies to reduce call backs, improve building performance and achieve greater energy savings.
- About new products, foundation options, new ventilation and heating systems.

Who should attend: Home Builders, Interior Designers, Contractors, Architects, Project Managers, Developers, Product manufacturers, Real Representatives, Consultants & Industry stakeholders.
