## 2012 ONTARIO BUILDING CODE WORKSHOP

### NEW CODE. NEW REQUIREMENTS. NEW COSTS. ARE YOU READY?

Ensure your team is ready to meet the new energy efficiency requirements of the 2012 OBC without missing a step.

The 2012 Ontario Building Code will require that all new houses reach EnerGuide 80 levels of energy efficiency. Where the old code had one way to comply with energy efficiency requirements, the new Code has 37 compliance packages.

Each of the 37 compliance packages includes different insulation, space and water heating strategies that can satisfy the Code.

#### IN THIS WORKSHOP YOU WILL LEARN:

- The pros and cons of each strategy
- The individual requirements within each strategy
- How much each compliance package costs
- How your competition might build in 2012

Come to this workshop to find out which compliance package is right for you!

February 8, 2012

9:00 a.m. - 4:30 p.m.

#### LOCATION:

BILD  
20 Upjohn Road  
North York

#### COST:
